SCADA Solutions, Inc. Announces Participation at Wind Power 2009

Carlsbad, CA - March 16, 2009 – SCADA Solutions, Inc. (SSI) announced today it has secured its booth for the upcoming WINDPOWER 2009 Conference & Exhibition. The event runs from May 4 – 7 at the McCormick Place Convention Center in Chicago.

WINDPOWER 2009 Conference and Exhibition is the largest annual wind conference and exhibition in the world featuring over 13,000 attendees and over 1000 exhibitors. Each year, wind energy professionals gather at this event to learn about the latest industry developments and technologies, review new products and services in the expansive exhibit hall, and network with leading industry decision makers. Join us for what promises to be an exciting event at Booth #3226.

About SCADA Solutions, Inc.

SCADA Solutions specializes in restoring infrastructure integrity through integration of communications and SCADA systems. We provide complete design, engineering, installation and service of communications and SCADA systems, fiber optics and cable assemblies, and offer the latest technologies in smart packet radios. The results are a completely integrated control design essential to the utilization and maintenance of critical renewable energy assets.

Our expertise in system design engineering of complete SCADA solutions, coupled with our experienced and professional installation knowledge, allows for seamless delivery and implementation, with minimal operational interruption. Our superior communication, automation and integration capabilities and ability to serve all brands of turbines, both old and new, sets us apart from other third party SCADA providers.
